

REAL TIME COMMUNICATION SYSTEM POWERED BY AI FOR SPECIALLY ABLED

PROJECT DESIGN PHASE -1

SOLUTION FIT TEMPLATE

Domain name: Artificial Intelligence

Team ID: PNT2022TMID18994

Team leader: Navaneethan B

Team members: 1.Oruganti Mahesh Babu
2. Mukesh M
3. Vasanth P M

Project Design Phase -1- Solution Fit Template

Project Title: Real Time Communication System Powered by AI for Specially Abled

Team ID: PNT2022TMID18994

Define CS, fit into CC	1. CUSTOMER SEGMENTS(S) CS It is primarily dependent on the characteristics of the team work that we are targeting and the work is divided. It deals with the emotional balance.	6.CUSTOMER CONSTRAINTS CC Customer can only ask for only what he can get and not all he can get. What they want is almost every product is done based on similarities among a group of customers so it would be difficult to get solution for all problems.	5.AVAILABLE SOLUTIONS AS There are many applications and websites which helps specially abled in many ways. Also techniques like machine learning, Deep learning and Image processing are available which are very useful for communication between them.	Explore AS, differentiate
	2.JOBS-TO-BE DONE / PROBLEMS PR Mental trauma. Not able to communicate easily. Family issues. Hesitate to ask help.	9.PROBLEM ROOT CAUSE RC They need to deal with devices which are costlier, and many cannot afford those devices. People are not satisfied with the devices, privacy issues.	7.BEHAVIOUR BE Behaviour is the clustering process. This is totally based on how the customer interact with your product and their buying behaviour. This is also based on how frequently the customer buys from you.	
Identify strong TR & EM	3.TRIGGERS TR Make it easy. Act quickly. Give recognition.	10.YOUR SOLUTION SL Create application which can help specially abled people and include all the related services provided to disabled peoples.	8.CHANNELS OF BEHAVIOUR CH Social media awareness videos made but users of the websites allow access so that others can use it. Advertise online with specially abled influencers to test and promote it.	Identify strong TR & EM
	4.EMOTIONS EM Plays major role in every project. It needs support for every individual as they go through lot which is not mentioned. So while preparing something need to be aware of how they react to the product.
